

Job Title: Full Stack Developer

Job Overview:

We are seeking a talented and motivated Full Stack Developer to join our growing team. If you are passionate about technology, enjoy tackling complex challenges, and want to be a key contributor to exciting projects, we want to hear from you. As a Full Stack Developer at PropVIVO, you will play a crucial role in the design, development, and implementation of cutting-edge solutions. You will work closely with cross-functional teams to deliver high-quality software solutions, utilizing a variety of technologies.

Responsibilities:

- Collaborate with cross-functional teams to define, design, and implement new features and applications across the full software stack.
- Design, develop, and maintain robust and scalable applications using a combination of front-end and back-end technologies.
- Develop, test, and maintain robust, scalable, and high-performance web applications.
- Work with front-end technologies such as HTML, CSS, and JavaScript to create intuitive and responsive user interfaces.
- Implement server-side logic using server-side frameworks (Node.js, Django, Flask, etc.) to ensure seamless integration with the front-end.
- Design and implement database structures, ensuring data security, integrity, and efficient performance.
- Stay up to date with the latest industry trends and technologies to continuously enhance the development process and product offerings.
- Work on debugging, troubleshooting, and optimizing application performance.
- Collaborate with other team members, including UX/UI designers, product managers, and QA engineers, to deliver high-quality software solutions.
- Participate in code reviews, provide constructive feedback, and adhere to coding standards.

Qualifications:

- Bachelor's/ master's degree in computer science, Software Engineering, or a related field.
- Strong proficiency in front-end technologies, including HTML, CSS, JavaScript, and front-end frameworks (ReactJs, Angular, NextJs Vue, etc.).
- Solid understanding of backend technologies and frameworks, including ASP.NET, Node.js, or similar.
- In-depth knowledge of server-side programming languages and frameworks (Node.js, Django, Flask, etc.).
- Experience with relational and non-relational databases (MySQL, MongoDB, etc.).

- Familiarity with RESTful APIs and web services.
- Familiarity with NoSQL databases (e.g., MongoDB, Cosmos DB) and SQL databases (e.g., Microsoft SQL Server).
- Solid understanding of version control systems (Git).
- Strong problem-solving skills and attention to detail.
- Excellent communication and collaboration abilities.
- Ability to work in a fast-paced and dynamic environment.

Benefits: -

- Opportunity to develop your own team.
- Health Insurance
- 5 Days working
- Experience working with the Global Company
- Competitive Learning Environment with supportive co-workers
- Career Development
- Competitive salaries & Variable bonuses
- Meals Provided (Breakfast & Lunch)
- Star of the Month Bonus
- Referral Bonus
- Occasional Parties

Job Location: Onsite (Surat, Gujarat)
